Profile Nibblers

Cold and emission-free operation

PN 4360: profile height up to 79 mm

PN 4361: profile height up to 162 mm

PN 4361

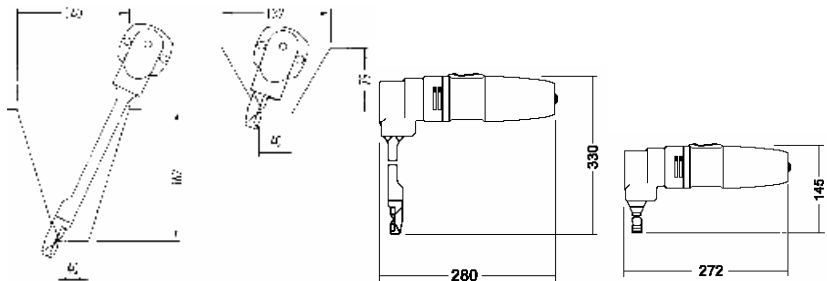

- extremely manoeuvrable, easy operation
- fast, safe cutting of corrugated, trapezoidal and square sheet profiles
- welded seams and double sheet can be cut, even corners with acute angles
- high cutting capacity
- chips eject below material, guarantees clear, unimpeded view of the working area and the cutting line
- cuts all materials that can be punched, such as mild steel, stainless steel aluminium, non ferrous metals and plastics
- tooling system allows cutting direction to be changed as required
- long life tools
- regrindable, easy to change tooling
- superior, emission-free operation
- free from sparks or heating
- no damage or scratch marks to painted or coated materials

ideal for:

- halls, factories, roof and wall in corrugated materials
- roofers
- shop installation etc.

PN 4360

Also available as pneumatic (or cordless tools) version for application in hazardous areas
